

isyFLAG indoor

straight

Production instruction:

- solid line: the background up to this line please (full color or picture). Not beyond that, none seam allowance or bleed required!
- dashed line = net view format; No logos or texts placed outside, otherwise they will be in the lateral curve or could lie in a seam.
- Color information: please include any color values for logo or similar in the order note.
- It is essential to delete the dashed line before forwarding it for printing, outline remains!
- Communication standard: HKS, Pantone, CMYK according to the DCS color book
